

11/25/2015

Cordero,

I wanted to take a moment to thank you and the Purple Aces for your contribution to House of Hope. The hygiene drive your players took the initiative to run on our behalf made a great impact on our program and our residents. Your team was able to collect over 1,000 products for our shelter! These products allow us to prepare our rooms throughout the year with hygiene products that our homeless families need such as shampoo, body wash, diapers, and laundry soap. When families arrive at our shelter, we have these products available in their rooms so they can shower and do laundry and begin their stay with dignity.

Thank you again for making such a wonderful contribution to our shelter and for teaching your players the importance of volunteering in their community. We are excited to continue to partner with you in the future and we look forward to seeing the difference your Purple Aces Players will make in their schools, on their campuses and in the community, as they grow into the leaders and change makers of the future.

Sincerely,

A handwritten signature in black ink, appearing to read "CSchatz", with a long, sweeping horizontal line extending to the right.

Carrie Schatzman
Program Manager
